

April 2019

CAMP

The pavilion did not fair over the winter, so we have some volunteers that will be helping us put a full new roof on. This should give it an even better look than before.

The pavilion is also being matted and grveled this spring.

AEP has been out to evaluate the camp for installing electric to our pavilion and entry booth, hopefully we will not have to run generators this season!! This is not a fast moving project so our first show may not have the electric but it should be in soon if they can. In the future, we hope to expand electric to the sites.

Temporary stalls are currently being looked into for events. If we are able to get them in we will. If the summer goes well, we will install permanent stalls with a roof. Once they are in we will notify everyone.

The Burtons & the Hawks have donated a bunch of very nice trees to the park. 75+ hard woods and pines. If the weather will cooperate this spring we will get them dug and planted throughout the camp.

110 TONS of gravel has been delivered to camp for the road in, the pavilion and the course. I am sure it will go fast and we may bring more in but this should get us a good start.

Hopefully the weather holds and we can get some new trails open this spring too. We will have some new ones for the OQHA ride that will only be open for the guided ride...don't miss out seeing these!

AWARDS

This year we are trying something new. There will be no ribbons this year, but instead usable items!!

This is very exciting! We are working with Schneider's tack and a few more to see what all we can get. Each show will be a little different. So do not miss any to collect all the fun awards.

****All mountain trail open labeled classes will be payout's, no awards. Payout will be 50% of all entry fees**

****All Mounted Archery Classes will have a payout for 1st and a tack item. 2nd & 3rd will be an award. Ground archery will be 50% of entry fees payback.**

OQHA High point for all Youth & Adult labeled classes.

IMTCA world high point belt buckle for all classes excluding lead line, and fun classes.

NEW OBSTACLES

We are super excited to start the 2019 show season!

As always we are growing and changing. This year we are adding a cake box 4 tiers high, a mail box and lift the feed sack before the park opens.

A water tower is also in the works with its own flowing creek bed to the pond, this make take a little longer to install with the spring weather but will be up this summer.

Some obstacles will be moved around with the adding of new as well.

Be sure to come try them all out!

BEHIND THE SCENES

Stay tuned, soon we will be doing all our registration online for everything. You will be able to make your own account to have all forms online, track your points, sign up for classes and so much more. We are very excited to expand in this. Hopefully it will help organize and move the day through a little faster.

Next will be computerizing the judge sheets so no more adding by hand! This will take a little to get in place, a great team has been working all winter on. Hopefully before the year is over this will be in place.

There will be a few changes to the calendar, be sure to check it out.

Regional's we have decided to do the Qualifier on Saturday and Regional's on Sunday to help promote our youth being able to make it in

APRIL

April 25-26 ~ IMTCA Judge Certification

April 27-28 ~ Mark Bolender Clinic (Park only open to auditors and riders in clinic)

MAY

May 1 ~ Open 4pm - 9pm
